

## **Sugarmade Becomes Western US Marketer of the FreeHand® ThumbTray™**

City of Industry, Calif., May 20, 2015 - Sugarmade, Inc. (OTC:SGMD), the marketer of environmentally friendly office paper made from sugarcane waste and bamboo and its sister company, CarryoutSupplies.com, today announced the signing of a product supply and licensing agreement to bring the FreeHand® ThumbTray™ to the western part of the United States. The, patent pending FreeHand product uses a strategically placed hole in the bottom of the tray that when combined with the powerful leverage of the thumb makes balancing a FreeHand ThumbTray loaded with food AND beverage practically effortless.

At last, balancing concession purchases is a one handed job. The FreeHand ThumbTray allows food concession customers to balance more, and therefore they buy more. Plus the FreeHand ThumbTray has six "billboards" which exceed 100 square inches of brand building and advertising space with a captive audience staring at the FreeHand ThumbTray the entire time they eat. Can't do that with a billboard on the highway! The FreeHand ThumbTray is fully customizable with flexible design/sizing and customized graphics for large quantities.

Jimmy Chan, CEO of Sugarmade commented, "The FreeHand ThumbTray revolutionizes the on-the-go eating experience and we are very excited to now be offering this product to states west of the Rocky Mountains plus the great state of Texas".

For the past few weeks the Company has been booking spring and summer street festival and food events where its personnel will be distributing tens of thousands of FreeHand ThumbTrays. Management sees the partnership opportunities as vast and interest in the product thus far has been very strong. Please stay tuned over the coming weeks as Sugarmade announces the spring, summer and fall schedule for distribution of this product at some of the most exciting and heavily attended food-related events within the California market.

### **About the FreeHand® ThumbTray™**

Finally someone in the concessions business realized the importance of mankind's greatest asset.....the opposable THUMB. The brilliant new FreeHand ThumbTray uses a strategically placed hole in the FreeHand ThumbTray bottom combined with the powerful leverage of the thumb to make balancing a FreeHand ThumbTray loaded with food AND beverage practically effortless. At last, balancing concession purchases is a one handed job. The FreeHand ThumbTray allows your customer to balance more, and therefore they buy more. The FreeHand ThumbTray revolutionizes the on-the-go eating experience.

Plus the FreeHand ThumbTray has six "billboards" which exceed 100 square inches of brand building and advertising space with a captive audience staring at the FreeHand ThumbTray the entire time they eat. Can't do that with a billboard on the highway! The FreeHand ThumbTray is fully customizable with flexible design/sizing and customized graphics for large quantities. Multiple patents are pending on the FreeHand ThumbTray.
